Adi Burgić

• Novo Mesto, Slovenia | ✉ adiburgic@gmail.com | ☎ +386 70 173 774 | 🔗 LinkedIn

Computer Science student (thesis in progress) with hands-on experience in corporate communication, front-end web development, and AI-driven automation. At Revoz d.d. (Renault Group), contributed to large international projects including the Dacia Spring and Nissan Pixo launches, and used AI tools to speed up recurring content work such as multilingual posts and internal reporting templates. Strong at using AI to solve problems quickly, working across departments, and turning ideas into finished deliverables. Fluent in English, Bosnian, and Slovenian.

WORK EXPERIENCE

Revoz d.d. (Renault Group), Novo Mesto, Slovenia | Feb 2026 – Sep 2026

Communication & Public Affairs Assistant (Internship & Student Position)

- Designed visuals and materials for large international projects and high-level visits: the launches of the new Dacia Spring and Nissan Pixo, a plant visit by Dacia CEO Katrin Adt, an international Suppliers Meeting with a delegation from China, and a French delegation visit, for which I created a dedicated booklet.
- Helped organize international media test-drive events for automotive journalists.
- Used generative AI tools to draft communication posts in Slovenian, English, and French, speeding up publishing across channels.
- Built a reusable template for the Info Flash, a bi-weekly summary report for heads of departments, making each edition faster and more consistent to produce.
- Worked cross-functionally with other departments in the company, and created an AI-assisted slide visual for a Renault Group colleague in France.
- Created visual content for internal channels (digital screens, the Inside'R app, LinkedIn), plus videos and PowerPoint presentations using Canva, CapCut, and AI tools.

Fiverr (Remote) | 2021 – Present

Freelance Digital Creator

- Completed 50+ freelance projects for international clients across logo design, video editing, and front-end web development, maintaining a 4.9/5 average rating.
- Built responsive landing pages and simple websites using HTML/CSS for small businesses and personal brands.
- Designed custom brand logos using Canva and Adobe tools, and edited short-form content (Reels, TikToks, YouTube intros) using CapCut and Adobe Premiere Pro.
- Communicated with clients in English, met tight deadlines, and managed multiple orders simultaneously.

Avtohiša Velkavrh, Slovenia | Two short placements: Jan 2021 & Feb 2022

Digital Content & Systems Assistant

- Helped streamline internal communication and inventory management using Excel and basic scripts.
- Produced social media content and short promotional videos using Canva and CapCut, boosting engagement by 30%.
- Assisted with website updates using HTML/CSS and collaborated with the marketing team on outreach ideas.

EDUCATION

Fakulteta za informatiko in računalništvo Novo mesto, Slovenia | 2023 – Present
